

This architectural floor plan illustrates the National Stadium in Tokyo, a large-scale sports and entertainment venue. The central feature is the stadium bowl, which is an oval-shaped structure with multiple tiers of seating. The field of play is clearly marked with standard soccer field dimensions, including the center circle, penalty areas, and goalposts. Surrounding the stadium bowl are various functional areas, including entrances, exits, and service zones. The plan also shows the stadium's integration with the surrounding urban environment, including roads, parking areas, and adjacent buildings. Key features include the main entrance at the bottom, the stadium bowl, and the surrounding infrastructure.

競技場西側 北第1・2駐車場  
競技場東側 北第3駐車場
