

This architectural floor plan illustrates the National Stadium in Tokyo, designed for the 2020 Summer Olympics. The central feature is the stadium bowl, which is an oval-shaped structure with multiple tiers of seating. The field of play is clearly marked with a center circle and goal areas. Surrounding the bowl are various functional areas, including concourses, restrooms, and service areas. The plan also shows the stadium's integration with the surrounding urban environment, including roads, parking lots, and adjacent buildings. Key features include the main entrance, the stadium's roof structure, and the surrounding infrastructure.

・競技場内にいる人	陸上競技場外	競技場西側	北第1・2駐車場
・競技場周辺にいる人		競技場東側	北第3駐車場
